

Term 1 Week 8 2013

Staff Meeting

Bek Pressler

NIT Changes

Be considerate please...

Please be aware that due to staffing difficulties we are doing our best to ensure that NIT is covered. If you do end up missing a NIT please write it on the staff board. We will endeavour to make it up when we can.

Please be aware that we are down a third leadership person and at times we are down on teaching staff and have to make up a class. This means that sometimes there is only one of us on Leadership duty. Your understanding and patience with us at this time would be appreciated.

Staff Meeting

Cued Articulation

Many thanks to Sharon Healey from Chat Factory for coming back to run our staff training session on cued articulation. It is an expectation that after learning about this form of cueing students in to phonics sounds that staff will practice

this in their classrooms with students.

This should make the breaking up of sounds into their graphs and digraphs all that more succinct when doing spelling and oral language activities.

Performance Development

Meetings with Line Managers

Please make a time on the board to meet with your line manager to arrange your PDP meeting.

Running Records

Our school data finally.....

We have started the year at 25% of students at level.
An improvement to last year's starting point of 4%.

Next collection due in Week 10 for processing. Please don't be late. It means Bek get's rapped on the knuckles at Regional Office level for having data in late.

NOT a pleasant experience!!

Langford Training

Written application reminders

Just a reminder that if you were intending to apply for the Langford Training, your application is due very soon.
